

## Constructive Details

### Group 01 Foundations

CD-01.01	<a href="#">Wall footing supporting a reinforced concrete wall</a>
CD-01.02	<a href="#">Wall footing supporting a brick wall</a>
CD-01.03	<a href="#">Spread footing</a>
CD-01.04	<a href="#">Spread footing with variable depth</a>
CD-01.05	<a href="#">Circular footing. (Circular reinforcement)</a>
CD-01.06	<a href="#">Circular footing. (Reinforced with two welded panels)</a>
CD-01.07	<a href="#">Spread footing and expansion joint</a>
CD-01.08	<a href="#">Strap footing</a>
CD-01.09	<a href="#">Self-centred edge footing</a>
CD-01.10	<a href="#">Combined edge footing. (Variation 1)</a>
CD-01.11	<a href="#">Combined edge footing. (Variation 2)</a>
CD-01.12	<a href="#">Strap footing at corner (1 of 2)</a>
CD-01.12	<a href="#">Strap footing at corner (2 of 2)</a>
CD-01.13	<a href="#">Self-centred corner footing</a>
CD-01.14	<a href="#">Combined footing. (Variation 1)</a>
CD-01.15	<a href="#">Combined footing. (Variation 2)</a>
CD-01.16	<a href="#">Tie beam between footings</a>
CD-01.17	<a href="#">Foundation beam. (Variaton 1)</a>
CD-01.18	<a href="#">Foundation beam. (Variation 2)</a>
CD-01.19	<a href="#">Grid foundation. (Variation 1) (1 of 2)</a>
CD-01.19	<a href="#">Grid foundation. (Variation 1) (2 of 2)</a>
CD-01.20	<a href="#">Grid foundation. (Variation 2) (1 of 2)</a>
CD-01.20	<a href="#">Grid foundation (Variation 2) (2 of 2)</a>
CD-01.21	<a href="#">Foundation slab (1 of 2)</a>
CD-01.21	<a href="#">Foundation slab (2 of 2)</a>
CD-01.22	<a href="#">Caisson</a>
CD-01.23	<a href="#">Wall footing</a>
CD-01.24	<a href="#">Bored pile</a>
CD-01.25	<a href="#">Pile cap</a>
CD-01.26	<a href="#">Two-pile cap</a>
CD-01.27	<a href="#">Three-pile cap</a>
CD-01.28	<a href="#">Four pile cap</a>
CD-01.29	<a href="#">Group pile cap (N &gt; 4)</a>
CD-01.30	<a href="#">Centering beam for one or two pile caps</a>

### Group 02 Retaining walls and basement walls

CD-02.01	<a href="#">Cantilever retaining walls. Nomenclature</a>
CD-02.02	<a href="#">Cantilever retaining walls. Footing</a>
CD-02.03	<a href="#">Cantilever retaining walls. Stem</a>

CD-02.04	<a href="#"><u>Cantilever retaining walls. Variations</u></a>
CD-02.05	<a href="#"><u>Cantilever retaining wall. Key</u></a>
CD-02.06	<a href="#"><u>Cantilever retaining walls. Construction joints in footings</u></a>
CD-02.07	<a href="#"><u>Cantilever retaining walls. Vertical contraction joints in the stem</u></a>
CD-02.08	<a href="#"><u>Cantilever retaining walls. Horizontal construction joints in architectural concrete</u></a>
CD-02.09	<a href="#"><u>Cantilever retaining walls. Vertical contraction joints</u></a>
CD-02.10	<a href="#"><u>Cantilever retaining walls. Expansion joints</u></a>
CD-02.11	<a href="#"><u>Cantilever retaining walls. Fill and drainage</u></a>
CD-02.12	<a href="#"><u>Buttress walls. Buttress nomenclature and distribution</u></a>
CD-02.13	<a href="#"><u>Buttress walls. Footing</u></a>
CD-02.14	<a href="#"><u>Buttress walls. Stem</u></a>
CD-02.15	<a href="#"><u>Buttress walls. Inside buttress</u></a>
CD-02.16	<a href="#"><u>Buttress walls. End buttress</u></a>
CD-02.17	<a href="#"><u>Tray walls</u></a>
CD-02.18	<a href="#"><u>Tray walls. Tray details</u></a>
CD-02.19	<a href="#"><u>Basement walls. Facade footing</u></a>
CD-02.20	<a href="#"><u>Basement wall. Centred footing</u></a>
CD-02.21	<a href="#"><u>Basement wall. Vertical contraction joint</u></a>
CD-02.22	<a href="#"><u>Basement walls. Special details (1 of 2)</u></a>
CD-02.22	<a href="#"><u>Basement walls. Special details (2 of 2)</u></a>
CD-02.23	<a href="#"><u>Diaphragm walls. General reinforcement</u></a>
CD-02.24	<a href="#"><u>Diaphragm walls. Crown beam</u></a>
CD-02.25	<a href="#"><u>Diaphragm wall-beam bond (Variation 1)</u></a>
CD-02.26	<a href="#"><u>Diaphragm wall-beam bond (Variation 2)</u></a>
CD-02.27	<a href="#"><u>Diaphragm wall-beam bond (Variation 3)</u></a>
CD-02.28	<a href="#"><u>Diaphragm wall-slab bond (Variation 1)</u></a>
CD-02.29	<a href="#"><u>Diaphragm wall-slab bond (Variation 2)</u></a>
CD-02.30	<a href="#"><u>Walls. Drainage chamber and channel in diaphragm wall</u></a>

### **Group 03**

### **Columns and joints**

CD-03.01	<a href="#"><u>Columns springing from the footing. Tie bar arrangement</u></a>
CD-03.02	<a href="#"><u>Columns in intermediate storeys. Tie bar arrangement</u></a>
CD-03.03	<a href="#"><u>Columns in top storey. Tie bar arrangement</u></a>
CD-03.04	<a href="#"><u>Intermediate joint in edge columns (Variation 1)</u></a>
CD-03.05	<a href="#"><u>Intermediate joint in edge columns (Variation 2)</u></a>
CD-03.06	<a href="#"><u>Intermediate joint in edge columns (Variation 3)</u></a>
CD-03.07	<a href="#"><u>Intermediate corner joint (Variation 1)</u></a>
CD-03.08	<a href="#"><u>Intermediate corner joint (Variation 2)</u></a>
CD-03.09	<a href="#"><u>Intermediate corner joint (Variation 3)</u></a>
CD-03.10	<a href="#"><u>Facade or corner joint on last storey</u></a>
CD-03.11	<a href="#"><u>Inside joint in intermediate storeys (Variation 1)</u></a>

CD-03.12	<a href="#"><u>Inside joint in intermediate storeys (Variation 2)</u></a>
CD-03.13	<a href="#"><u>Intermediate joint in circular columns</u></a>
CD-03.14	<a href="#"><u>Transition from circular to rectangular columns</u></a>
CD-03.15	<a href="#"><u>Corner joint in large span portal frames</u></a>
CD-03.16	<a href="#"><u>Bar arrangement and shapes of ties in columns</u></a>
CD-03.17	<a href="#"><u>Bundled bar arrangements</u></a>
CD-03.18	<a href="#"><u>Arrangement of laps in columns with bundled bars</u></a>
CD-03.19	<a href="#"><u>Edge schedule. Column schedule</u></a>

**Group 04      Walls subjected to axial loads**

CD-04.01	<a href="#"><u>Walls, shear walls and cores. General arrangements</u></a>
CD-04.02	<a href="#"><u>Walls, shear walls and cores. Joint detail</u></a>
CD-04.03	<a href="#"><u>Walls, shear walls and cores. Corners, joints and edges</u></a>
CD-04.04	<a href="#"><u>Walls, shear walls and cores. Detail of openings</u></a>
CD-04.05	<a href="#"><u>Walls, shear walls and cores. Special details for slip forms (Variation 1)</u></a>
CD-04.06	<a href="#"><u>Walls, shear walls and cores. Special details for slip forms (Variation 2)</u></a>

**Group 05      Beams and Lintels**

CD-05.01	<a href="#"><u>Beams. Simply supported beams</u></a>
CD-05.02	<a href="#"><u>Beams. Header joint</u></a>
CD-05.03	<a href="#"><u>Beams. Continuous lintels with constant depth</u></a>
CD-05.04	<a href="#"><u>Beams. Continuous lintels with variable depth</u></a>
CD-05.05	<a href="#"><u>Beams. Staggered lintels</u></a>
CD-05.06	<a href="#"><u>Beams. Stepped lintels</u></a>
CD-05.07	<a href="#"><u>Beams. Edge soffit beam</u></a>
CD-05.08	<a href="#"><u>Beams. Internal soffit beam</u></a>
CD-05.09	<a href="#"><u>Beams. Soffit beam-edge beam intersection (1 of 2)</u></a>
CD-05.09	<a href="#"><u>Beams. Soffit beam-edge beam intersection (2 of 2)</u></a>
CD-05.10	<a href="#"><u>Beams. Transition from internal soffit beams to normal beams</u></a>
CD-05.11	<a href="#"><u>Beams. Transition from edge soffit beams to normal beams</u></a>
CD-05.12	<a href="#"><u>Beams. Joint details</u></a>
CD-05.13	<a href="#"><u>Beams. Industrialised joint</u></a>
CD-05.14	<a href="#"><u>Beams. Cantilevered beams</u></a>
CD-05.15	<a href="#"><u>Beams. Arrangement of reinforcement at cross section</u></a>
CD-05.16	<a href="#"><u>Beams. Contraction joints</u></a>
CD-05.17	<a href="#"><u>Beams with architectural concrete. Contraction joints and construction joints</u></a>

**Group 06      Slabs, ribbed slabs and precast slabs with beam block and hollow core floor systems**

CD-06.01	<a href="#"><u>Slabs. General types longitudinal and cross-sections</u></a>
CD-06.02	<a href="#"><u>Solid slab. Connection to brick wall and concrete beams</u></a>
CD-06.03	<a href="#"><u>Ribbed slab. Connection to brick wall and concrete beams</u></a>
CD-06.04	<a href="#"><u>Slabs with self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to brick wall</u></a>
CD-06.05	<a href="#"><u>Slabs with self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to reinforced concrete beams</u></a>
CD-06.06	<a href="#"><u>Slabs with self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to soffit beams</u></a>
CD-06.07	<a href="#"><u>Slabs with self-supporting prestressed concrete joists.</u></a> <a href="#"><u>Connections to brick wall</u></a>
CD-06.08	<a href="#"><u>Slabs with self-supporting prestressed concrete joists.</u></a> <a href="#"><u>Connections to reinforced concrete beams</u></a>
CD-06.09	<a href="#"><u>Slabs with self-supporting prestressed concrete joists.</u></a> <a href="#"><u>Connections to soffit beams</u></a>
CD-06.10	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to brick wall</u></a>
CD-06.11	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to concrete beams</u></a>
CD-06.12	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete joists.</u></a> <a href="#"><u>Connections to soffit beams</u></a>
CD-06.13	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete lattice joists.</u></a> <a href="#"><u>Connections to brick wall</u></a>
CD-06.14	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete lattice joists.</u></a> <a href="#"><u>Connections to concrete beams</u></a>
CD-06.15	<a href="#"><u>Slabs with semi-self-supporting reinforced concrete lattice joists.</u></a> <a href="#"><u>Connections to soffit beams</u></a>
CD-06.16	<a href="#"><u>Slabs with semi-self-supporting prestressed joists. Connections to brick wall</u></a>
CD-06.17	<a href="#"><u>Slabs with semi-self-supporting prestressed joists. Connections to concrete beams</u></a>
CD-06.18	<a href="#"><u>Slabs with semi-self-supporting prestressed joists. Connections to soffit beams</u></a>
CD-06.19	<a href="#"><u>Precast beam and block floor systems. Change in beam direction</u></a>
CD-06.20	<a href="#"><u>Precast beam and block floor systems. Connection to wall parallel to beams</u></a>
CD-06.21	<a href="#"><u>Precast beam and block floor systems. Cantilever with extended joists</u></a>
CD-06.22	<a href="#"><u>Precast beam and block floor systems. Cantilever without extended joists</u></a>
CD-06.23	<a href="#"><u>Beam and block floor systems. Openings</u></a>
CD-06.24	<a href="#"><u>Slabs lightened with embedded tubing</u></a>

CD-06.25	<a href="#">Hollow cores. General details</a>
CD-06.26	<a href="#">Hollow cores. Connections</a>
CD-06.27	<a href="#">Hollow cores. Tip and edge tie hoops in cantilevers</a>
CD-06.28	<a href="#">Hollow cores. Vertical panel and beam supports</a>
CD-06.29	<a href="#">Hollow cores. Supports on vertical panels</a>
CD-06.30	<a href="#">Hollow cores. Supports on vertical panels and beams</a>
CD-06.31	<a href="#">Hollow cores. Openings in the slab</a>

## **Group 07      Flat slabs**

CD-07.01	<a href="#">Flat slabs. Top reinforcement</a>
CD-07.02	<a href="#">Flat slabs. Bottom reinforcement</a>
CD-07.03	<a href="#">Flat slabs. Arrangement of flexural reinforcement (1 of 2)</a>
CD-07.03	<a href="#">Flat slabs. Arrangement of flexural reinforcement (2 of 2)</a>
CD-07.04	<a href="#">Flat slabs. General details</a>
CD-07.05	<a href="#">Flat slabs. Punching shear reinforcement (Variation 1) (1 of 2)</a>
CD-07.05	<a href="#">Flat slabs. Punching shear reinforcement (Variation 1) (2 of 2)</a>
CD-07.06	<a href="#">Flat slabs. Punching shear reinforcement (Variation 2) (1 of 2)</a>
CD-07.06	<a href="#">Flat slabs. Punching shear reinforcement (Variation 2) (2 of 2)</a>
CD-07.07	<a href="#">Flat slabs. Punching shear reinforcement (Variation 3) (1 of 2)</a>
CD-07.07	<a href="#">Flat slabs. Punching shear reinforcement (Variation 3) (2 of 2)</a>
CD-07.08	<a href="#">Flat slabs. Punching shear reinforcement (Variation 4) (1 of 2)</a>
CD-07.08	<a href="#">Flat slabs. Punching shear reinforcement (Variation 4) (2 of 2)</a>
CD-07.09	<a href="#">Flat slabs. Drop panels</a>
CD-07.10	<a href="#">Flat slabs. Column with drop and head</a>
CD-07.11	<a href="#">Flat slabs. Openings (Variation 1)</a>
CD-07.12	<a href="#">Flat slabs. Openings (Variation 2) (1 of 2)</a>
CD-07.12	<a href="#">Flat slabs. Openings (Variation 2) (2 of 2)</a>

## **Group 08      Stairs**

CD-08.01	<a href="#">Stairs. General layout details</a>
CD-08.02	<a href="#">Stairs. Reinforcement scheme for double flight</a>
CD-08.03	<a href="#">Stairs. Reinforcement arrangement for stairs with three flights</a>
CD-08.04	<a href="#">Stairs. Foundation for starting flight</a>
CD-08.05	<a href="#">Flying stairs (1 of 2)</a>
CD-08.05	<a href="#">Flying stairs (2 of 2)</a>

## **Group 09      Bearings**

CD-09.01	<a href="#">Bearings. Device for centring loads</a>
CD-09.02	<a href="#">Bearings. Confinement for linear loads</a>
CD-09.03	<a href="#">Bearings. Elastomer bearings</a>
CD-09.04	<a href="#">Flat jack housing to change bearings</a>

CD-09.05      [Bearings. Plastic hinge](#)

**Group 10      Brackets and dapped-end beams**

CD-10.01      [Brackets \(Variation 1\)](#)

CD-10.02      [Brackets \(Variation 2\) \(Suspended load\)](#)

CD-10.03      [Brackets. Double bracket](#)

CD-10.04      [Dapped-end beams](#)

**Group 11      Ground slabs and galleries**

CD-11.01      [Ground slabs. Typical section](#)

CD-11.02      [Ground slabs. Joints \(1 of 2\)](#)

CD-11.02      [Ground slabs. Joints \(2 of 2\)](#)

CD-11.03      [Ground slabs. Contraction joints](#)

CD-11.04      [Ground slabs. Expansion joints](#)

CD-11.05      [Ground Slabs. Strengthening free edge of slab](#)

CD-11.06      [Galleries. Ductways](#)

**Group 12      Chimneys, towers and cylindrical hollow columns**

CD-12.01      [Chimneys, towers and cylindrical hollow columns. General layout](#)

CD-12.02      [Chimneys, towers and cylindrical hollow columns. General arrangement of reinforcement](#)

CD-12.03      [Chimneys, towers and cylindrical hollow columns. Crown details](#)

CD-12.04      [Chimneys, towers and cylindrical hollow columns. Bracket to support lining](#)

CD-12.05      [Chimneys, towers and cylindrical hollow columns. Duct inlets](#)

CD-12.06      [Chimneys, towers and cylindrical hollow columns. Circular slab around the top](#)

CD-12.07      [Chimneys, towers and cylindrical hollow columns. Circular slab foundations](#)

CD-12.08      [Chimneys, towers and cylindrical hollow columns. Annular footings](#)

CD-12.09      [Chimneys, towers and cylindrical hollow columns. Plastic water inflow pipes in submerged hollow columns](#)

CD-12.10      [Chimneys, towers and cylindrical hollow columns. Reinforcement laps](#)

**Group 13      Silos, caissons and rectangular hollow columns**

CD-13.01      [Silos, caissons and rectangular hollow columns. Silo sections](#)

CD-13.02      [Silos, caissons and rectangular hollow columns. Intersections and connections. \(Horizontal sections\) \(1 of 2\)](#)

- CD-13.02 [Silos, caissons and rectangular hollow columns. Intersections and connections. \(Horizontal sections\) \(2 of 2\)](#)
- CD-13.03 [Silos, caissons and rectangular hollow columns. Plastic water inflow pipes in submerged columns](#)
- CD-13.04 [Silos, caissons and rectangular hollow columns. Hoppers](#)
- CD-13.05 [Silos, caissons and rectangular hollow columns. Foundations](#)
- CD-13.06 [Silos, caissons and rectangular hollow columns. Reinforcement laps](#)

**Group 14      Reservoirs, tanks and swimming pools**

- CD-14.01 [Reservoirs, tanks and swimming pools. Rectangular open tanks. General details](#)
- CD-14.02 [Reservoirs, tanks and swimming pools. Circular open tanks. General details](#)
- CD-14.03 [Reservoirs, tanks and swimming pools. Roofed reservoirs and tanks. General details](#)
- CD-14.04 [Reservoirs, tanks and swimming pools. Corner details \(1 of 2\)](#)
- CD-14.04 [Reservoirs, tanks and swimming pools. Intersection details \(2 of 2\)](#)
- CD-14.05 [Reservoirs, tanks and swimming pools. Joints and bearing in walls](#)
- CD-14.06 [Reservoirs, tanks and swimming pools. Contraction and expansion joints in slabs on grade](#)
- CD-14.07 [Reservoirs, tanks and swimming pools. Joints in walls](#)
- CD-14.08 [Reservoirs, tanks and swimming pools. Specific details for improving construction joint watertightness](#)

**Group 15      Special construction details for earthquake zones**

- CD-15.01 [Summary of basic aspects](#)
- CD-15.02 [Geometrical constraints](#)
- CD-15.03 [Particular aspects of detailing \(1 of 2\)](#)
- CD-15.03 [Particular aspects of detailing \(2 of 2\)](#)
- CD-15.04 [Coupling elements in coupled walls](#)
- CD-15.05 [Reinforcement anchorage](#)
- CD-15.06 [Splicing of bars](#)
- CD-15.07 [Concrete foundations elements](#)
